

XLM is your complete Information Technology specialist. We provide solutions in

- Product Lifecycle Management / Product Document Management (PLM/PDM)
- Collaboration Infrastructures / Custom Portal Development
- 3-D Design, Visualization, and Desktop Virtual Reality Simulations
- High-Performance Computing and Virtual Machine Systems

We offer expert PLM and PDM solutions based on **ENOVIA® SmarTeam, V6**, and **MatrixOne**, as well as **SolidWorks® EPDM**. We also provide collaboration solutions based on **Microsoft® SharePoint** technologies, including integrations of *SmarTeam* and *EPDM* into *SharePoint* environments.

XLM can help you design and implement quality, state-of-the art solutions for your business, manufacturing, and engineering processes. Our services include

- Strategic Business and Process Assessments
- Solution Architecture
- Project Management
- Implementation and Configuration
- General and Technology-Specific Support
- Custom Solution Development
- Training

We are dedicated to quality and excellence in our products, services, and your satisfaction. Through research and new technology initiatives, we remain on the cutting edge of information and PLM technologies to provide you with the state-of-the-art products and solutions.

XLM associates are experts in

- PLM / PDM Systems
- Database Architectures and Administration
- Software Architecture, Engineering and Development
- Data Visualization and Virtual Reality
- Virtualization (VMware & Microsoft Virtual Machines)
- High-Performance Computing
- System Integration
- Networking
- Business Processes and Administration
- Advanced Engineering
- Life Sciences

Our team consists of experienced and exceptional software consulting and system integration professionals. We have extensive knowledge in Product, Data, and Information Lifecycle Management (PLM, DLM, ILM); Information, Internet and Microsoft technologies; and other enterprise software solutions. We are devoted to providing you, our client, with world class end-to-end Lifecycle Management and Information Technology services. We work closely with you throughout the entire solution process: beginning with requirements and constraints analyses

through solution design, development, installation, configuration, and customization. We then provide you with unparalleled post-installation support and maintenance. We are committed to your satisfaction.

xLM creates value for you by

- Providing you with world-class consulting, deployment, training, and support services
- Ensuring that your PLM and IT solutions are aligned with your business vision and needs
- Ensuring that your solutions are implemented on time, budget, and target through proven delivery methodologies using value- and success-driven processes

We take pride in client attention and satisfaction. We listen carefully to ensure that your PLM and IT needs are properly met in a timely manner. It is our goal to provide you, our valuable customer, with quality tools, resources, and innovative solutions for successful information systems management.
