SolidWorks WG PDM to ENOVIA SmarTeam Automated Migration Tool

Solution

A fully automated tool for system migration from SolidWorks Workgroup PDM (WG PDM) to ENOVIA SmarTeam

Features

Custom Data Migration

Migration scope configurable to include only selected WG PDM projects or folders with associated data and files

Folder/Project Structure Mirroring

A SmarTeam folder/project hierarchy is constructed to reflect the original WG PDM project structure

Revision History Preservation Option:

May select to migrate the full revision history or just the latest version of the file

Benefits

- Provides a “smooth” and efficient migration experience
- Minimizes data transformation risks
- Reduces manual efforts
- Facilitates SmarTeam configuration
